ship, a sacrifics to government negigence," declared Evt Foran, master mariner, in his first authorized statement to-day, as he stood on the sloping deck on the passenger steamer Hay State, wrecked on the rocks off

Cape Elizabeth last Saturday.

"This little piece of paper, he said, referring to his commission, "for which I have worked thirty-two years, goes by the board. My life effort has been for nothins."

Captain Foran laid the responsibility for the disaster to the style of buoys in use in the vicinity of the wreck.

Russian Koustari Art Needlework

We have recently contracted with the Imperial Russian Government through its Department of Agriculture to act as its sole agents in the United States for the sale of all articles of Koustari (Russian peasant) manufacture on Linen, and we now have pleasure in announcing the arrival of a considerable shipment of this work by steamer Mogileff from Archangel.

This work comes from districts as widely separated as Courland, Novgorod and Kiev. Much of it is from the Schools which are under the Royal patronage of the Princess Golitzin and Princess Lvov.

All of the goods are made on hand-woven Crash, ranging in weight from a sheer, filmy fabric to the heavy and firm grades familiarly known to art needleworkers as Russia Crash. Much of the work is done in White, but there are many wonderful specimens in color, in which the softness of tone and artistic blending of color are very remarkable.

But not only is the Russian peasant a skilful needleworker and an artist in the blending of color; he is also a designer of no mean ability. The needlework, the color blending, and the designs in these goods are a characteristic expression of Russian Art, which we believe will be a surprise to many people.

Another feature of this work which is not least in importance is its very moderate price. Among the various articles shown are Table Covers and Scarfs of many different sizes, Doilies, Luncheon and Tea Cloths, etc.

These goods are also on Sale at our Magnolia and Neuport branch stores

To the People of New York

WAR PRICES ON FLOUR and other materials compel us to make price and weight adjustments on our bread so that beginning Monday, October 2nd, our present small size TIP-TOP and DAINTY-MAID bread, wraped as usual, with added weight, will retail at SIX CENTS a loaf, as will also the small size fancy breads, such as WHEATHEART, VIENNA, COTTAGE BUNS, small RYE, and all other small varieties. Anticipating some demand for a nickel loaf, we will on the same day introduce a small loaf of TIP-TOP and DAINTY-MAID bread at a reduced weight with proper label, unwrapped, to be retailed at FIVE CENTS.
This FIVE CENT loaf will be too small to manufacture

satisfactorily and we therefore recommend that you purchase either the SIX CENT units mentioned above or our large TIP-TOP or DAINTY-MAID bread which will continue to retail to you at TEN CENTS the loaf, wrapped as heretofore.

We particularly recommend the large TEN CENT TIP-TOP or DAINTY-MAID loaves because they are the most economical to buy, containing more than the amount of two FIVE CENT loaves. Furthermore, these large size loaves are superior in flavor, will not dry out so quickly and are in every way most desirable for the

The price and weight adjustments noted here are absolutely necessary to enable us to continue manufacturing with the existing high cost of bread-making materials. Assurance is given that the WARD standard of quality will be religiously maintained in all breads.
